INTERIM FEEDBACK

SUBMIT SINGLE PDF FILE – NO COMPRESSION

- YOU DO NOT NEED TO INCLUDE MATLAB SCRIPTS OR PROLOG FILES SEPARATELY.

-YOU MAY FIND IT EASIER TO TYPE YOUR ANSWERS IN A WORD DOCUMENT, AND INSERT ANY HAND-DRAWN FIGURES, THEN SAVE AS PDF

Please submit the following for interim feedback, the deadline for which you can find in SurreyLearn under Assessments/assignments. No marks are awarded for the submission, and no penalty if you do not submit. However, I encourage you to submit, to ensure that you have made the right choice of assignment. As a bare minimum please use the assignment folder to notify me of your choice of assignment.

One of the following:

Matlab – Include just the graphs of experiment Exp 1) for average test and train classifier percentage error rate versus epochs for different number of nodes. Anything else you submit will not be marked at this stage.

Prolog – implementation of Prolog tutorial sheet 1). You can also include the stations of the London Underground, and show how you represent the connections between stations in Prolog. Anything else you submit will not be marked at this stage.

NN report – draft showing just proposed chapter headings and structure, along with a brief description of what you intend to cover in the main body of the report.
